

SCIENTIFIC SEMINAR SERIES

13 July 2022

Too many TB biomarkers for too many applications? What now?

Time: 12h00 | Wednesday, 13 July 2022

Venue: JN De Villiers Auditorium, Tygerberg Campus & K1 room, K-RITH Tower Building, UKZN or virtually*

Presenters: Professor Gerhard Walzl

Gerhard Walzl is a clinician scientist, trained in internal medicine, pulmonology and immunology, and leads the Stellenbosch University Immunology Research Group. He is the head of the Division of Molecular Biology and Human Genetics, Executive Head of the Department of Biomedical Sciences, holds a NRF SARChI award and has been awarded a Distinguished Professor title for a second term. His research focuses on the immunology of Mycobacterium tuberculosis (MTB) infection and in particular host biomarkers.

*Please register in advance for this seminar at www.ceri.org.za or www.krisp.org.za
After registering, you will receive a confirmation email with information about joining the seminar.
