

SCIENTIFIC SEMINAR SERIES

Wednesday 25 May 2022 @11h30

VENUE: STIAS, Manor House Library, Wallenberg Centre or virtually*

Context-specific emergence and spread of SARS-CoV-2 lineages

Presenter: Professor Moritz Kraemer

Moritz Kraemer is an Associate Professor of Computational and Genomic Epidemiology and Fellow at Reuben College at the University of Oxford. Moritz is the recipient of a Branco Weiss Fellowship, a fellow at the Wissenschaftskolleg Berlin (Institute of Advanced Studies), Ruth L. Kirschstein National Institutes of Health (NIH) fellowship at Harvard Medical School. He's the co-director of the Oxford Martin Schools Programme in Pandemic Genomics, a recipient of the Google AI Faculty Award, one of the Google.org Leaders to Watch in 2022 and the co-founder of Global.health, a data integration and analytics platform. Moritz research interests lie at the intersection of data-science, network science, climate science, epidemiology, public health and genomics. His work has been published in Science, Nature, The Lancet and featured widely in the New York Times, NPR, Economist, Der Spiegel, Financial Times, Nature & Science News.

*Please [register](#) in advance for this seminar. In-person attendance is limited to 50. The seminar will be followed by a three-course meal at STIAS, please RSVP by no later than **18 May** if you will be staying for lunch. After registering, you will receive a confirmation email with information about joining the seminar. We look forward to seeing you and advancing high-level science in Africa.
